### **Parent/Student VLA Online Option Expectations**

In order to effectively manage the delivery of VLA, parents and students must understand the following:

- VLA, or another online curriculum, cannot fully replicate the learning experience found with in-person teaching.
- Parents and the students accept additional responsibility in an online (at-home) learning environment.
- The District expects parents choosing this option for their child to commit to at least a quarter - (nine weeks). Students should not be switching back-and-forth between online learning and in-person attendance frequently. This provides for consistency for our teachers and students.
- Teachers may not be available to assist students as frequently as the online student or their parents may desire. Teachers will be instructing and supervising students in-person within our school buildings. Teachers may not be available to assist students outside of their contractual work hours.
- Parents and students should expect up to five (5) days before VLA lessons are available. Once a choice is made to access learning through the VLA platform there are set-up procedures that need to take place prior to lessons being available.
- Students must comply with assignment due dates.
- Students must sign-in electronically to the online learning platform each day Fairfield Union Schools are scheduled to be in session to be counted as in attendance.
- Lessons/assignments may be different for online VLA students than those assigned or provided to students attending in-person instruction; however, the lesson/assignment will address the same concepts and standards of instruction.
